# RYAN

FULLY MODULAR  
THOROUGHLY MODERN.

Ryan is a height adjustable  
open bench furniture  
workstation designed &  
engineered to leverage the  
values of simplicity with the  
benefits of quality,  
durability & performance.

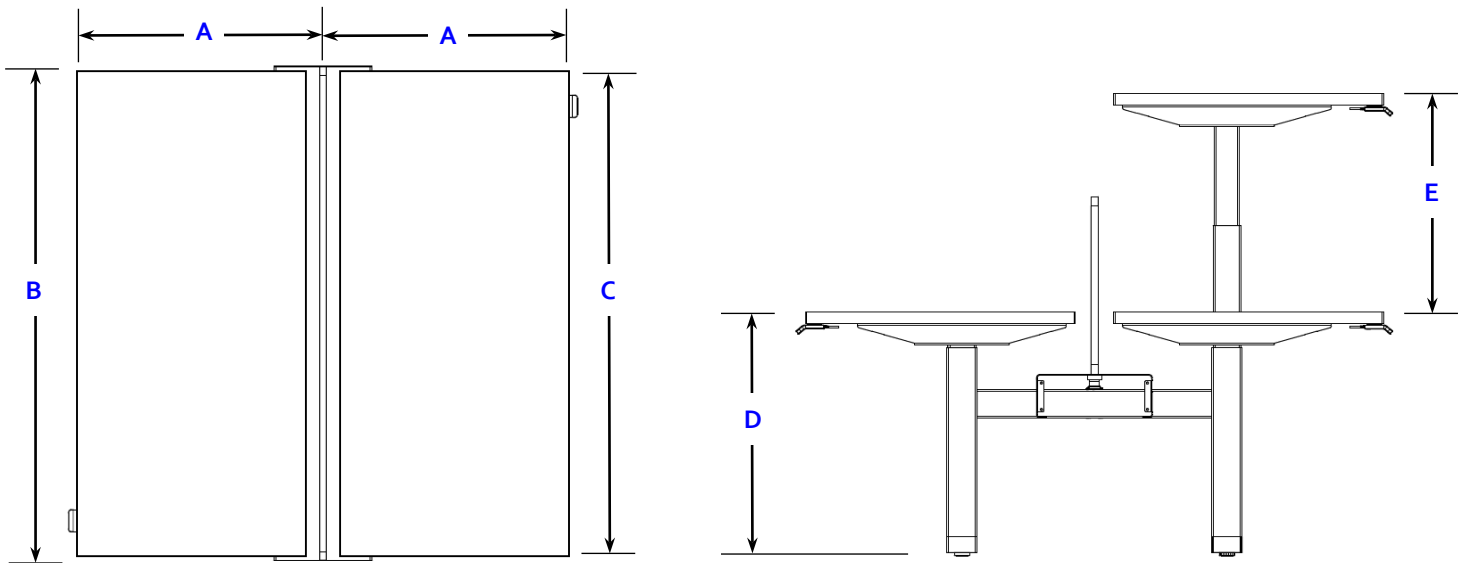

While Ryan's strength is in its legs  
its heart lies within its brain.

LaCOUR® has been innovating height adjustable workstations since 2004. From the beginning, we sought the absolute best in performance and durability by partnering with LINAK®, world leader of actuator technology. Their performance, lifting force and five-year guarantee are unparalleled in the industry:

- ✓ Compact design with guide and actuator functions as an integrated unit
- ✓ Reinforced columns with optimized motor housing for extra strength and stability
- ✓ 38mm/s max speed with soft start, soft stop technology
- ✓ Ultra quiet operation
- ✓ Ultra low power drawer at rest (-.001 amps)
- ✓ Approved in accordance with UL No. 962

## Power & data capabilities

Ryan is available in a variety of power & data options. Its 8Trac modular furniture power system is 100% electrically tested to ensure the highest quality and reliability.

The practical design combines junction blocks, jumpers and power in-feeds into one modular assembly. Power is routed through extremely flexible oval metal conduit making traversing sharp corners easy.

Options shown are just a fraction of what is available. Ask your LaCOUR representative for more information.
